

PRICELIST OF LABORATORY TESTS NEOGRAPH

Accredited testing:

- 1) Determination of brightness, whiteness..... 60 EUR
- 2) Determination of printing opacity..... 60 EUR
- 3) Determination of shade..... 60 EUR
- 4) Determination of basis weight..... 48 EUR
- 5) Determination of thickness..... 48 EUR
- 6) Determination of air permeability (Gurley).....52 EUR
- 7) Determination of water absorption (Cobb)..... 56 EUR
- 8) Determination of tensile strength (breaking length).....60 EUR
- 9) Determination of tensile strength - wet 60 EUR
- 10) Determination of doublefolds (Schopper)..... 60 EUR
- 11) Determination of stiffness..... 52 EUR
- 12) Determination of pH in water extract 52 EUR
- 13) Determination of tearing resistance (Elmendorf).....52 EUR
- 14) Determination of surface strength (Dennison)44 EUR
- 15) Determination of ash kontent.....44 EUR
- 16) Determination of roughness (Parker)..... 48 EUR
- 17) Determination of smoothness (Bekk).....48 EUR
- 18) Determination of grease resistance (KIT).....60 EUR

Unaccredited testing:

- 1) Determination of mass density.....45 EUR
- 2) Determination of volumen index..... 45 EUR

Prices are set for the analysis of one sample of paper or board - due to the standards 5-20 measurements.

For each contract will be added to a fixed rate and costs for preparing the test report – a total of 20 EUR.

When ordering the 5-accredited tests (including) the tests are included in the base rate according to price list. For each additional tests ordered over the number will be deducted 10% of the cost of the test.

Tests No. 1-3 can be ordered as a „package“. In this case (in the order of these three tests in one contract), the price is only one such test.

When ordering the summary of analysis (i.e. all 18 tests), the customer will be offered a discount of 20% of the total contract price.
