

List of methods for tests:

Serial number	Test procedure	Identification of the test procedure	Subject tests
1	Determination of brightness	PN 010	Paper, board
2	Determination of opacity	PP 2 (ČSN 50 0309)	Paper, board
3	Determination of color shade	PN 008	Paper, board
4	Determination of basis weight	PP 4 (ČSN EN ISO 536)	Paper, board
5	Determination of thickness	PP 5 (ČSN EN ISO 534)	Paper, board
6	Determination of porosity (Gurley)	PP 6 (ČSN ISO 5636-5)	Paper, board
7	Determination of water absorption (Cobb)	PP 7 (ČSN ISO 535, Z1, Opr.1)	Paper, board
8	Determination of tensile strength (breaking length)	PP 8 (ČSN EN ISO 1924-2)	Paper, board
9	Determination of tensile strength, wet (breaking length, wet)	PN 004	Paper, board
10	Determination of doublefolds (Schopper)	PN 001	Paper, board
11	Determination of stiffness	PP 1 (ISO 2493)	Paper, board
12	Determination of pH in aqueous extract	PP 12 (ČSN ISO 6588)	Paper, board
13	Determination of tearing resistance (Elmendorf)	PP 13 (ČSN ISO 1974, Z1)	Paper, board
14	Determination of surface strength (Dennison)	PN 002	Paper, board
15	Determination of ash content	PP 15 (ČSN ISO 2144)	Paper, board
16	Determination of roughness (Parker)	PP 16 (ČSN ISO 8791-4)	Paper, board
17	Determination of smoothness (Bekk)	PP 17 (ČSN ISO 5627)	Paper, board
18	Determination of grease resistance (KIT)	pp 18 (TAPPI T 559 cm-02)	Paper, board

Explanatory and shortcuts:

- cm – Claiming to measure
- PN – Company standard (test method NEOGRAPH, a.s.)
- PP – Work flow (internal work flow of Laboratory Neograph)
- TAPPI – The Technical Association of the Pulp and Paper Industry
